TECHNICAL TRANSLATIONS

Issued twice a month by the Clearinghouse for Federal Scientific and T nical Information in cooperation with the Special Libraries Association Tra tions Center and the European Translations Centre. Annual subscription ($4 additional for foreign mailing). Single copy 60 cents. Make remittance able to Superintendent of Documents and mail either to a Department of C merce Field Office or to Superintendent of Documents, U.S. Government Pri Office, Washington, D.C. 20402. Address changes are to be made to Sup tendent of Documents.

PURPOSE

Technical Translations announces to the public the availability and pro order information for translated scientific and technical reports, periodicals books. Although most of the literature has been translated into English, is in other Western European languages. The language of the translatio other than English, is noted in the citation. Most of the material is of S origin, but works from Eastern and Western European countries and from Orient, especially Japan and Communist China, are also cited. In order to duplication of effort, translations in process are also announced.

FORMAT

This journal is separated into five sections:

(1) Bibliographic citations are divided into 22 major fields; they are fu subdivided alphanumerically under 178 groups. References to sourc original text are given as they appear on the translation, with suffi editing to assure uniformity in citations.

(2) Translations in Process lists titles of translations being prepared by go ment and private sources. All Special Foreign Currency Science I mation (SFCSI) Program translations are listed (formerly PL Program).

(3) Translated or Abstracted Publications lists titles of approximately technical and scientific periodicals regularly translated into English. Inc is a cross reference by English title.

(4) Translated Tables of Contents of recent issues of monographs, journal journal sections; they are preceded by a list of the English titles o publications from which they are taken.

(5) Indexes: three indexes are arranged by author, journal and number.

HOW TO ORDER

Each bibliographic entry contains the acronym or initials of the agency from w the translation is to be ordered; these are keyed to the complete list of ord addresses listed in the pages headed "Directory of Sources." Order by the titl number given in the citation. Translations available from the Clearingh (CFSTI) often have alternative prices cited as hard copy (HC) and micro copy (MF). Make check or money order payable to agency indicated. Mo the literature is available from the Clearinghouse, the Special Libraries Associ Translations Center (SLA), or the European Translations Centre (ETC).

REFERENCE SERVICE

Reference services for the location and identification of translated mate completed or in process, are provided by the Clearinghouse, Special Libr Association Translations Center, and the European Translations Centre. M addresses are listed in "Directory of Sources."

TRANSLATORS

The work of translating the material listed is being done at many points, dom and foreign, government and private. Among them are the Joint Publica Research Service, which translates foreign research at the request of Federal agencies; commercial translators; publishers; and universities. The S Foreign Currency Science Information Program, administered by the Na Science Foundation, produces translations prepared in the participating cou of Israel, Poland and Yugoslavia. The Special Libraries Association is respo for collecting translations from non-government sources, domestic and fo and the Clearinghouse from foreign and U.S. Government sources. Trans may have their works cited in the journal by sending the bibliographic availability information to the Clearinghouse. A copyright release statem required if the works are to be sold by the Clearinghouse.

special ANNOUNCEMENTS

SOCIAL SCIENCE TRANSLATIONS

The Clearinghouse has expanded its announcement and distribution of translations to include the social sciences. This extended coverage of translations by the Clearinghouse was recently endorsed by the Interagency Committee on Scientific and Technical Information (COSATI), a committee of the Federal Council on Science and Technology.

The principal Government producer of social science translations is the Joint Publication Research Service (JPRS), a component of the Clearinghouse. JPRS was established in 1957 to translate under contract, for all Federal agencies, foreign documents and journals in all fields of science.

JPRS social science translations are announced in this journal and are available from the Clearinghouse.

Private Sources of JPRS Translations in the Social Sciences

Research and Microfilm Publications, Inc., (RMP) offers microfilms of current and back files of JPRS social science reports, bibliography-guides to report contents, and other bibliographies and catalogs. Certain selected books are offered individually. RMP has recently begun to include scientific and technical reports in its microfilm issuances. The reports sold by this firm are on 35-mm microfilm reels, arranged first by geographic area, then divided into serials, ad hoc and books. They are grouped within these sections by subject. Bibliography guides and catalogs are in offset format and are available with or without the microfilm series.

The cost of RMP's JPRS-ST Research Microfilms is six-tenths of one cent per page reproduced. The annual subscription includes all scientific and technical translations. RMP furnishes each subscriber with an annual statement of cost on the basis of actual production. A $250 semi-annual advance payment is required. JPRS social science translations are also priced at six-tenths of one cent per page reproduced. The semi-annual subscription advance payment is $250. An annual statement of cost is provided.

RMP prices for microfiche follow on the next page.

RMP prices for microfiche are:
